

LEGAL SCHOOL DISTRICT RESIDENCE OF STUDENTS

Generally:

1. A student's residence for school district purposes is presumed to be the legal domicile of the custodial parent(s) or other person(s) having legal custody of the student, such as a legal guardian.
2. A student not living with a custodial parent or legal guardian, where there is no surrender of legal custody or parental control to an adult domiciled within the boundaries of the school district, will not be regarded as having legal residency with the district. The same is true where the living arrangement is only temporary.
3. A parent(s) who has multi-residences may choose any one as their domicile. A choice of domicile is indicated by registration to vote in general elections and use of that same address on income tax returns.
4. Students who are deemed to be homeless within regulations set forth by the State Education Department shall have the attendance rights of a homeless student as outlined within Board Policy 504.7.
